

Motion® SLM
MARTIN LOGAN

Inspired by MartinLogan’s ultra-high-end electrostatic loudspeakers, the Motion® Series was created to provide stunning sound for your ultimate-performance home theater or stereo.

MartinLogan’s dedicated in-house engineers carefully crafted the Motion Series to create an extremely affordable and compact product line that seamlessly blends our exquisite Folded Motion™ transducers with powerful, compact bass technology. The result is a smooth, refined sound with stunning dynamic range and jaw-dropping clarity. Included here are just a few of the outstanding awards and accolades the Motion Series has received.

"I see it as a gateway speaker to the MartinLogan brand... it's one of the best wall-mounted speakers I've reviewed. They're beauties to look at, with a high-gloss finish to match that of any flat-panel TV. The Folded Motion Tweeter is more refined than those used in other wall-mounts I've heard, and the Motion SLMs produced much better depth of image than other on-walls... All in all, an easy recommendation."

- Vince Hanada

"... the Motion SLM:XL speakers are the best-sounding on-wall speakers I've heard at or anywhere near their price. The speaker's versatility for use as a center channel and/or surround - as well as its ability to be placed on the wall, desktop, or floor - make it a superb value. If you are looking for a great pair of low-profile speakers to match with your flat-panel TV, you owe it to yourself to take the SLM:XLs for a spin and see if they're right for you." **- Myron Ho**

Motion[®] SLMX3
MARTIN LOGAN

May 2019

<http://bit.ly/2JoOvAw>

"There's a lot more to this ultra-slim passive soundbar than meets the eye. While it's a compact and classy alternative to conventional left/centre/right speakers, the Motion SLM X3 also makes the most of musical fare." – **Deon Schoeman**

"Motion SLM X3 gave every extraterrestrial effect and every musical note its due. And once I was plonked down on my own keister with a movie of enormous fun, I forgot to worry about the sound – I sat back and enjoyed it. Nothing could recommend the Motion SLM X3 more." – **Kevin East**

"The MartinLogan Motion SLM X3 is wonderful solution for the movie lover that has not the floor space or budget for large speakers. Featuring the Folded Motion Transducer and advanced mid-range drivers, the MartinLogan Motion SLM X3 delivers highly detailed sound for movie and video soundtracks." – **Francisco Licon**

TONEAudio

April 2018

"Though priced at the upper end of the soundbar spectrum, the SLM X3 is a premium solution. It's like three high-performance MartinLogan speakers, tailor-fit into a compact housing. They refer to it as an "Ultra-Slim Folded Motion speaker". This is a premium product from one of audios finest companies. Highly recommended." – **Jeff Dorgay**
